

To whom this may concern... I am an XM Satellite Radio user, and I understand that there is a movement underway to curtail our listening pleasure. I utilize the traffic and weather channels because I travel extensively in my vehicle. I pay for these services and it should not be up to NAB to dictate what I am "permitted" to hear on my subscription service. Please reject NAB's petition 04-160.

Thank you very much for listening.

Ron Oates
